

## Is your child too sick for school?

Your child should stay home from school if:

- ~ fever of 100.4 or higher
- ~ vomiting
- ~ diarrhea
- ~ frequent cough
- ~ persistent pain (earache, stomachache, headache)
- ~ conjunctivitis (pink eye)

The problems should be discussed with your child's physician to determine whether or not an office visit is necessary.

**If any of the symptoms listed above develop during the school day, you will be contacted and required to pick your child up immediately.**

The single, most effective thing you can do as a parent to keep your child healthy during the school year is to promote and encourage frequent hand washing and good hygiene practices.
