strategic plan.

enables our PLCs to focus on data review and planning for instrucion based on that data, taking planning for

Describe the proposed concept, and explain how it addresses the need/challenge identified above.

Creating a semester course for science and one for social studies would enable students to:  
- learn social studies concepts in chronological order  
- remain connected to content to build over time  
- alleviates time needed to reconnect with subject matter when alternating back and forth between subjects

Project Outcomes

Short-Term Goals

Long-Term Outcomes

This additional flexibility should help us continue to make progress toward our goal of increased student achievement in ELA and math.

Continue to see growth and progress in mastery of science and social studies standards.

Increased student achievement in ELA and math, progressing toward our goal of 90% of students achieving at levels 3 and 4 on the Georgia Milestones Assessment by May 2022.

+ Add new row

Include any research or evidence that the concept will positively affect your school's student population. If no research exists, please articulate the rationale for the likelihood of success of the concept and describe your plans for risk mitigation.

We believe there is a high likelihood of success as this initiative does not change instruction in any way, merely makes scheduling easier and can make the curriculum more accessible to students. The only foreseeable risk would be parents wondering about grades for the subject not covered in a semester which could be mitigated with clear and intentional communication.
