super smart & falling apart
Jeannine Jannot, Ph.D.

Dr. Jeannine Jannot will discuss her book, The Disintegrating Student, and take questions. Drawing on her decades of experience as a school psychologist, mother of three, adjunct instructor of psychology, and student coach, Dr. Jannot covers the developmental and cultural influences that cause today’s students to feel overwhelmed and stressed out, how this affects them academically and emotionally, and why they often don’t ask for help. Dr. Jannot identifies the skill deficits and counterproductive behaviors common to disintegrating students, and provides 77 Tips to be Productive and Well that will help struggling students get back on track to achieving their full potential. The Disintegrating Student teaches you how to help your child embrace what’s going right, address what’s going wrong, and develop the skills they need for success in school, and in life. I hope you will join other parents in our community at this event at Johns Creek High School on Wednesday, October 16 at 7:00 p.m.
