AP Computer Science Principles Summer Reading

1. Complete one of the three "hour of code" courses (Minecraft, Star Wars, or Anna and Elsa) at https://code.org/learn.
2. Also, complete the course at https://www.codeavengers.com/javascript/109#1.1 (including the project).
3. Enjoy the experience and spend enough time on them to understand the "why" behind the instructions vs. just speeding through them to get it done.
4. Send a screen shot (use the Snipping Tool in Windows) of both completed courses to leebnicholson@gmail.com.
