

Chattahoochee High School

Budget Committee Meeting

November 2, 2016

Main Office Conference Room

## **Minutes**

Meeting was called to order by Dilip Tunki, chair. Members in attendance: Matt Mihordea, Kyleigh Slocum, Kathy Smith.

We reviewed the feedback provided via Scott Hetherington for the initial Seed Fund request. While the initial feedback was generally positive, there were some specific suggestions for moving forward, including considering in more detail the costs for implementation and reaching out to Mr. Carey of the county to discuss construction.

The team went to the end of the DHall and surveyed the land to identify the best, potential locations for the structure based on ease of access to the building, access to electrical and plumbing, lighting. We identified two potential sights. One would be near to the outdoor classroom, one would be on the corner of the senior lot.

Discussion of Seed Fund Final Application steps:

- Secure more specific bids from greenhouse companies – Dilip will be doing this
- Identify the plumbers/electricians we have used with our building before and ask them to come give a tentative estimate and suggestions for best placement for the least cost of implementation – Matt and JP Denato to do this.
- Begin work on the text for the Seed Fund application – Kathy to take the lead on authoring the grant.

We will reconvene after the Thanksgiving Break to review what we have gathered.

Adjourned at 5:30.
