Great News.....

This week, the Georgia Department of Education (GDOE) released its annual School Climate Star and Financial Efficiency Star ratings for all schools in Georgia. Our 2016 score is **80.4 9 (three stars)**, which is an **increase of 3.1** from last year. School climate refers to the quality and character of school life – the “culture” of a school. School climate ratings are based on survey results and data from the 2015-2016 school year, and each school is rated on a 1-5 scale, with five stars representing an excellent school climate, and one star representing a school climate in need of improvement.
