

Request for Flexibility Renewal Application 2018-2019 Cycle

Instructions: Please write your responses in the boxes below.

SCHOOL NAME: Milton High School

CONCEPT NAME: Flexible Schedule During Spring EOC Administration

STRATEGIC INITIATIVE(S) (from new strategic plan): Increase students social and emotional wellness
Maintain high academic standards and expectations while focusing on increasing the academic success of the lowest quartile students

Data Analysis & Program Impact	
<p>1) To what extent was there a measurable increase in student outcomes, teacher instructional practices, and/or school climate and culture as a result of the RFF-supported initiative? Include quantitative data that specifically supports the continuing use of the RFF.</p>	<p>The new testing model allows Milton to test all students at the same time. With this model, we were able to reduce the time affected by testing from 8 days to 5.5 days. Data is attached.</p>
Rationale for Continuing RFF	
<p>2) Were there unique challenges to implementing the RFF that you did not originally consider? How did you overcome this challenge? Describe any changes or adjustments that must be made to the original proposal for implementation during the 2018-2022 strategic plan cycle.</p>	<p>The challenge was the underutilization of transportation. We are removing the transportation piece from the Request for Flexibility Renewal.</p>
Additional Considerations	
<p>3) What resources (human, operational, etc.) are needed to continue implementation of the RFF? How do you plan to provide these resources?</p>	<p>None</p>

RFF RENEWAL DATA – MILTON HIGH SCHOOL

Previous Testing Model			
Instructional Days Affected	Instructional Periods Affected	Instructional Minutes Affected/Period	Total Instructional Time Affected in minutes
8	6	55	2640

New Testing Model			
Instructional Days Affected	Instructional Periods Affected	Instructional Minutes Affected/Period	Total Instructional Time Affected in minutes
5	6	30	900

The new testing model allows Milton to test all students at the same time. With this model, we are able to reduce the instructional time affected by testing from 8 full days to a little over 5 half days.
