September 20, 2018

Dear Riverwood Families,

I am excited to announce that our graduation rate for 2018 was released by the Georgia Department of Education yesterday and has reached an all-time high of 92.2%. This represents a 5.2% increase from 2017 and was the highest increase across all Fulton County High Schools. I am proud of the team approach that our school is taking to mentor and support students. Additionally, I'm proud of our families, community, and feeder schools that made this happen.

You may have heard about Heards Ferry, High Point, and Lake Forest elementary schools receiving their authorization as IB World Schools. We know that our successes at the high school level would not be possible without the preparation that our students receive at our elementary schools and Ridgeview Charter School. We are excited about the future as we collaborate to ensure a world class k-12 experience for our students. It is worth noting that we are now the only full IB cluster in Fulton County Schools. We are #RiverwoodUnited and we look forward to an even brighter future together.

Warm regards,

A handwritten signature in black ink, appearing to read 'CWG', is written over a light blue horizontal line.

Charles W. Gardner, Ed.S

Proud Principal
