World Languages	40 - 42

AP/Honors Workload Students taking AP and Honors level courses during fall of 2017 were surveyed about how much time they spent outside of class completing assignments and studying. You will find the average number of minutes spent for each AP and Honors class **as reported by students** included at the end of the course description along with the number of respondents. These data points may be used to inform course selection, but is not guaranteed to be completely accurate.

It is the policy of Roswell High School and the Fulton County School System not to discriminate on the basis of race, color, sex, religion, national origin, age, or disability in any employment practice, educational program or any other program, activity, or service.

Segena Ponder
Sal Zarzana

Dear Parents and Students:

Welcome to the registration process for the 2018 - 2019 school year! Thank you in advance for taking the time to make well thought out and informed decisions about the courses you will take next year. Some things to consider include:

- How do the course requests align to your goals?
- If you are college bound, do the courses show an attempt at a high-level of rigor? Many college bound students make the mistake of taking on-level classes to boost their GPA while overlooking the fact that college recruiters want to see that students have challenged themselves with Advanced Placement or Honors courses.
- At the same time, does it look like you may be overextended? Please also take into consideration work requirements and extracurricular activities you may be participating in next year. Take note of the workload reported by students taking AP and Honors classes during fall of 2017.
- We make every effort to build a master schedule that accommodates all students' requests and we build our schedule around the course requests you submit now. While we try to accommodate schedule changes and have a process to do so, there is no guarantee that you can change classes in the fall.
- In order to maximize staffing allocations, there must be adequate demand for a course to be taught during a given school year. In instances where course demand is inadequate and a course does not make, we attempt to honor the alternate course request.

Our counseling staff is available to answer questions and to provide additional guidance on the selection of the appropriate curriculum path. Please send your registration questions to askroswellcounselors@gmail.com between February 12 and April 30. We look forward to serving you and to another outstanding school year.

Sincerely,
Robert Shaw, Ed.D

2018-2019 Registration Timeline

January

Core Subject Recommendations

English, mathematics, social studies, science, and world language teachers will make placement recommendations for their current students online through the Teacher Access Center.

January 25

Rising 9th Grade Parent Night – 6:30 p.m. in Auditorium

Rising 9th grade parents and students are invited to meet Principal Shaw, hear a presentation from our counselors, explore an Electives Showcase, and tour the building.

[A separate earlier meeting for parents of rising 9th Grade TAG students begins at 5:30 in the Aud.]

February 20 - 23

Selection of Electives and Alternates; Verification of Core Classes

Students will receive registration instructions during advisement on February 20. Completed registration forms are due on Friday, February 23 to students' advisement teachers.

February 22

AP/Honors/Dual Enrollment/TAG Info Night – 6:30 p.m. in Gym

Parents of students interested in taking an AP or honors course should attend this informational evening event. Course requirements will be discussed. Parents of rising 9th grade students from Crabapple MS and Elkins Pointe MS are welcome to bring their registration materials with any questions.

[A separate earlier meeting for parents of rising 9th - 12th Grade TAG students begins at 5:30 in the Aud.]

Week of March 13

2nd Verification Form Distributed/Submitted

During advisement, students will receive a course verification form that lists their core subject area course requests as well as electives. At this time, students may make changes. All students should submit their verification form with parent/guardian signature even if no changes are requested.

April 20

3rd Verification Form Distributed

During advisement, students will receive a 2nd course verification form that lists all of their requests (core courses and electives). Students will have a final opportunity to make changes to their requests on this form.

April 23

3rd Verification Form Submitted

During first period, students will turn in their 2nd verification form **only if there are changes**. This form should include any changes the student would like to make to his/her requests before his/her final schedule is created.

April 30

Course Change Deadline

Placement Recommendations for Entering 9th Grade Students

ENGLISH/LANGUAGE ARTS

Most ninth grade students will take on-level 9th Literature and Composition or 9th Lit/Comp Honors. Students who successfully completed 9th Lit/Comp Honors in middle school have the option to accept the course credit and take 10th Lit/Comp Honors as freshmen or to re-take 9th Lit/Comp Honors at the high school level.

9th Grade Lit/Comp Honors is an accelerated, college preparatory course aligned with Advanced Placement course objectives at the 11th and 12th grade levels. Typically students who score in the 86th percentile in reading and have the recommendation of their 8th grade Language Arts teacher perform well in 9th Lit Honors.

Honors English students grasp the story between the lines of the plot. Analyzing subtext and applying the principles of literary devices to a writer's style are essential abilities for these students. Having an appreciation for, if not a love of, reading is a definite advantage. Students who regularly read on their own, outside of school, are the best candidates for the Honors English program. A key to their success is an eager desire to discover their own intellectual voice.

Students work on more than one task at a time: reading stories for daily discussion, reading a novel for future discussion, and writing an academic, analytical paper for assessment of previous reading. They combine these overlapping projects with weekly vocabulary and grammar instruction.

Honors English students should be eager to work hard and fairly independently. They should be curious about literature and writing. They should be able to discuss and to support ideas, to manage their time and materials, and to build upon an existing, solid base in vocabulary, grammar, and writing.

Compositions typically consist of three to five typed pages. Students write these papers independently, outside of class, and the final product should reflect mature thought, correct grammar, and developed style. Most papers are literary analysis; this course is not a creative writing course. Students write a four- to five-page investigative research paper using a minimum of four sources.

On-level 9th Lit/Comp is a college preparatory course. Since 90% of RHS graduating seniors go to two- or four-year post-secondary schools, the English department is committed to meeting the needs of the community by preparing regular English students for college. These students attend and are successful at a wide range of colleges and universities across the country. They report that they are well prepared for the rigors of a college English course. Their college instructors often comment on their preparation and strengths.

Departmental standards of cumulative vocabulary and grammar quizzes, higher-level questions and essays on unit assessments, and consistent expectations for compositions provide productive vertical movement from ninth to twelfth grade. Teachers of team taught regular English classes hold students to the same standards as those to which students of other English classes are held. All classes are college preparatory.

Instruction in on-level 9th Lit/Comp tends to be more linear. For example, students read a novel outside of class for classroom discussion. They have reading check quizzes over the homework prior to class discussion. The novel unit usually concludes with a major test and/or a major composition. Once the novel unit is concluded, the teacher introduces another unit that might include a selection of short stories, a collection of poems, or a specific type of composition. Vocabulary and grammar are part of each unit. Teachers gear instruction toward introducing and guiding students' skill development. Following assessments, teachers might re-teach objectives that students have not mastered. Classroom instruction provides practice and opportunities for re-teaching and review. Students whose work ethic and performance indicate academic misplacement can move to an honors English class for the next school year.

Placement Recommendations for Entering 9th Grade Students

MATHEMATICS

Ninth grade students may follow one of several paths in mathematics. Refer to the chart below for the most common possible pathways for incoming 9th grade students.

Mathematics Course Progression

8 th	9 th	10 th	11 th	12 th
Math 8	GSE Algebra I Support <u>and</u> GSE Algebra I	GSE Geometry	GSE Algebra II	Advanced Math Decision Making <u>or</u> GSE Pre-Calculus
Math 8	GSE Algebra I	GSE Geometry	GSE Algebra II	GSE Pre-Calculus <u>or</u> Advanced Math Decision Making
Advanced Math 8	GSE Accelerated Algebra I/Geometry A	GSE Accelerated Geometry B/Algebra II	GSE Accelerated Pre-Calculus	AP Calculus AB <u>or</u> AP Calculus BC <u>or</u> AP Statistics
GSE Algebra I Honors	GSE Geometry Honors	GSE Algebra II Honors	GSE Pre-Calculus Honors	AP Calculus AB <u>or</u> AP Calculus BC <u>or</u> AP Statistics <u>or</u>
GSE Accelerated Algebra I/Geometry A	Accelerated Geometry B/ Algebra II	GSE Accelerated Pre-Calculus	AP Calculus AB <u>or</u> AP Calculus BC <u>or</u> AP Statistics	GA Tech Calculus* <u>or</u> AP Statistics *Successful completion of AP Calculus does not guarantee enrollment.

For more information regarding the mathematics curriculum, please visit <http://www.georgiastandards.org>.

Placement Recommendations for Entering 9th Grade Students

SCIENCE

The placement options most common for incoming 9th graders are Biology or Biology Honors. However, the Earth Systems option is in place for those students who would benefit from more support in Science.

The honors biology class is designed to explore biology at a more advanced level than on-level biology. Students will participate in rigorous laboratory activities that will require them to develop higher-order reasoning abilities. The book is used only to supply the students with a base of knowledge that the teacher supplements with the latest research and conceptual knowledge available. Students must be able to read and comprehend information in the text and then apply what they have learned in class.

The honors class moves at a faster pace than on-level biology does as it covers more material within each unit. While there is some written homework in honors biology, students are responsible for studying and reading outside the classroom. Excellent study skills are a must for success. The honors students must be motivated and eager to learn.

In addition, students will complete a biology research unit. This unit will include a literature review on a biology topic that might lead to a science fair project. Participation in science fair is optional but encouraged – especially for students interested in the Governor’s Honors Program.

Although honors biology is a more rigorous course than on-level biology, the science department feels confident that either course prepares the students to be successful in college. Students interested in pursuing a science-related career should consider taking honors-level science courses.

Refer to the chart below for the most common possible pathways for incoming 9th grade students.

8 th	9 th	10 th	11 th	12 th
Sci/ Phys World	Earth Systems for 9 th graders (by teacher recommendation)	Biology <u>or</u> Physical Science	Biology <u>or</u> Physical Science <u>or</u> Chemistry	Environmental Science <u>or</u> Human Anatomy <u>or</u> Human Anatomy Honors <u>or</u> Astronomy
Sci/ Phys World	Biology	Chemistry <u>or</u> Physical Science	Physics <u>or</u> Chemistry <u>or</u> Earth Systems	Environmental Science <u>or</u> Earth Systems <u>or</u> Human Anatomy <u>or</u> Human Anatomy H <u>or</u> Astronomy <u>or</u> AP Environmental
Sci/ Phys World Physical Science for HS credit	Biology <u>or</u> Biology Honors	Chemistry <u>or</u> Chemistry Honors	Physics <u>or</u> AP Physics 1 <u>or</u> AP Physics C <u>or</u> AP Chemistry <u>or</u> AP Biology	AP Physics [1,2, or C] <u>or</u> AP Chemistry <u>or</u> AP Biology <u>or</u> AP Environmental <u>or</u> Environmental Science <u>or</u> Earth Systems <u>or</u> Human Anatomy <u>or</u> Human Anatomy H <u>or</u> Astronomy

Placement Recommendations for Entering 9th Grade Students

SOCIAL STUDIES

American Govt/Civics is moved to the 12th grade year. Most 9th graders will not take Social Studies. The exception will be those 9th graders taking AP Human Geography. See the course catalog for a description of pre-requisite guidelines for these courses.

WORLD LANGUAGES

The honors world language student is highly motivated with aspirations of continuing study beyond the third year course. The level II honors courses are in-depth studies of all level II topics. The honors courses move at an accelerated pace, utilizing higher-level thinking skills. They emphasize oral production and are conducted almost exclusively in the target language. Strong emphasis is given to continued development of reading, writing, and listening comprehension skills. There are additional reading selections specific to level II honors courses. Excellent study skills are a must for success. Teachers recommend students for honors level based on a combination of factors, including class performance (90+ average), motivation/interest, and work ethic.

Graduation Requirements

Language Arts		4 units
	9 th Grade Lit and Composition	1
	10 th Grade World Lit and Composition	1
	11 th Grade American Lit/Comp <u>OR</u> AP Language & Composition	1
	12 th Grade Lit/Comp	1
	Multicultural Lit <u>OR</u> English (British) Lit	
	<u>OR</u> Advanced Comp <u>OR</u> AP Literature & Composition <u>OR</u>	
	College English	
Mathematics		4 units
	GSE Algebra I	1
	GSE Geometry	1
	GSE Algebra II	1
	4 th year math course	1
	GSE Pre-Calculus <u>OR</u> Advanced Math Decision Making <u>OR</u>	
	AP Calculus <u>OR</u> AP Statistics (w/Pre-Calc completion)	
Science		4 units
	Biology	1
	Physical Science or Physics	1
	Chemistry, Environmental Science, Earth Systems, or an AP Science class	1
	Additional Science course	1
Social Studies		3 units
	World History	1
	U.S. History	1
	American Government	0.5
	Economics	0.5
Health and Physical Education		1 unit
	General Health	0.5
	Personal Fitness	0.5
Fine Arts/Career Tech/World Language*		3 units
	*Students can take any combination of courses from the 3 areas listed above.	
	The University System of Georgia and many other post-secondary institutions require a minimum of two units of the same World Language.	
Electives		4 units
<hr/>		
Total required		23 units

Roswell High School Career Pathways

Career Tech – should include (3) distinct HS course codes in the discipline

Architectural Drawing and Design	ADDP
Broadcast/Video Production	BVPP
Construction	CP
Engineering and Technology	ENP
Food & Nutrition	NFSP
JROTC - Army	ARMYP
Personal Care Services - Cosmetology	PCSCP
Web & Digital Communications	WDP

Advanced Academic – should include (4) distinct HS course codes in the discipline with at least one AP or post-secondary course code *AND* (2) sequential courses in a world language

Mathematics	AAMP
ELA	AAELA
Science	AASP
Social Studies	AASSP

Fine Arts –

MIP/MVP: should include (3) distinct HS course codes in instrumental/vocal music and/or AP Music Theory with at least one course at level 2 or higher

TAP: should include (3) distinct HS course codes in theatre arts with at least one course at level 2 or higher

V2DP: should include (3) distinct HS course codes in Draw/Paint, Photo, Graphics and/or AP Drawing and/or AP 2D Design with at least one course at level 2 or higher

V3DP: should include (3) distinct HS course codes in Ceramics, Sculpture, Jewelry and/or AP Drawing and/or AP 3D Design with at least one course at level 2 or higher

Music Performance Instrumental	MIP
Music Performance Vocal	MVP
Theatre Arts	TAP
Visual Arts 2D	V2DP
Visual Arts 3D	V3DP

Journalism – should include a minimum of (3) distinct HS course codes in the publication and/or Photo I-III and/or Graphics I-IV with at least one course at level 2 or higher

Journalism Newspaper	JNP
Journalism Annual	JAP
Journalism Literary Magazine	JMP

World Languages – should include (3) distinct HS course codes *OR* (2) distinct HS course codes plus AP

French	FREP
German	GERP
Japanese	JAPP
Latin	LATP
Spanish	SPAP

ART

Course Title	Course #	Credit	Grade(s)	Prerequisite(s)	Major Topics
Introduction to Art (prerequisite for ALL other art courses)	50.0211001	0.5	9-12	None	This semester long introductory course establishes a standard and consistent foundation in the discipline of visual art and is a prerequisite for all other art courses. Students will be introduced to all aspects of visual art including art as personal communication, drawing, sculpture, ceramics, design, aesthetics, careers, art criticism and art history.
Ceramics 1	50.0411001	0.5	9-12	Introduction to Art	<p>Ceramics 1 is an introductory course in ceramics covering the three basic methods of hand building. Students will produce ceramic artwork using pinch, slab, and coil techniques. Students will learn the basic vocabulary of ceramics as well methods of surface treatment, firing, and other related aspects. Ceramic history, aesthetics, and art criticism will be incorporated throughout the course.</p> <p>Ceramics 2 provides in-depth work with clay beyond that of Ceramics 1. Students will further technical ability in hand building, surface decoration, and/or wheel-thrown ceramics. Glaze chemistry will be addressed with an emphasis on how a glaze works and how to alter results. Alternative firing techniques will introduce students to various surface effects and firing atmospheres. Students will work in a more conceptual manner to develop their own ideas, style and artistic voice. Students will continue to investigate ceramics from around the world and throughout time.</p> <p>Ceramics 3 is an advanced course providing in-depth work with clay. Students will further technical ability in hand building, surface decoration, and/or wheel-thrown ceramics. Glaze chemistry will be addressed with an emphasis on how a glaze works and how to alter results. Alternative firing techniques will introduce students to various surface effects and firing atmospheres. Students will work in a more conceptual manner to develop their own ideas, style and artistic voice while developing a portfolio.</p> <p>Ceramics 4 provides in-depth work with clay. Students will work in a more conceptual manner to develop their own ideas, style and artistic voice while developing a portfolio.</p>
Ceramics 2	50.0412001	0.5	9-12	Ceramics 1	
Ceramics 3*	50.0413001	0.5	10-12	Ceramics 2	
Ceramics 4* *pre AP	50.0414001	0.5	10-12	Ceramics 3	
Graphics 1	50.0721001	0.5	9-12	Introduction to Art	<p>Graphics 1 explores the creation of digital imagery using Adobe Illustrator and Photoshop. Emphasis will be placed on logo design, package design, advertising, typography, and other graphic design related elements. Graphics 2 extends the study Graphics 1. Graphics 3 extends the study of Graphics 2 and allows students to work in a more conceptual manner to develop their own ideas, style, and artistic voice while developing a portfolio.</p>
Graphics 2	50.0722001	0.5	9-12	Graphics 1	
Graphics 3	50.0723001	0.5	10-12	Graphics 2	
Graphics 4	50.0724001	0.5	10-12	Graphics 3	
Digital Design Project 1	50.0725001	0.5	9-12	Introduction to Art	<p>Digital Design Project 1 teaches illustration as it applies to sequential art and animation. Topics include the narrative arc, the rules of animation, character design, and anatomy for motion. Students will use a variety of hardware and software tools to create graphic design and animation projects.</p> <p>Adv Digital Design Project 2 enhances Level 1 skills. Students will create portfolios that include elements of illustration, electronic publishing, application design, 2D animation, video production, special effects, 3D animation, music production, photography, graphic design, interface design, and web design.</p>
Adv Digital Design Project 2	50.0727001	0.5	9-12	Digital Design Proj 1	

Drawing 1	50.0311001	0.5	9-12	Introduction to Art	Drawing 1 instructs students in fundamental drawing skills and prepares them to make the transition to painting. Course work builds on drawing skills introduced in Introduction to Art. Drawing approaches include contour, value to model form, gesture, perspective and color; students work with drawing media such as pencil, charcoal, conte, oil pastels. Art history, criticism and aesthetics are incorporated with studio production of drawings and paintings.
Drawing 2	50.0312001	0.5	9-12	Drawing 1	Drawing 2 continues to strengthen composition and drawing skills. The course includes studies in color sensitivity and a wide range of media and techniques. Drawing 2 builds on skills learned in Drawing 1. It differs in that the artworks produced are theme based with a more conceptual approach. Students have more freedom to choose subject matter of the work which will challenge student creativity.
Painting 1	50.0321001	0.5	9-12	Drawing 1	Painting 1 establish fundamental painting skills and strengthen composition and drawing skills. The course includes studies in color sensitivity and a wide range of water based media and techniques. This is a course designed to introduce foundational painting concepts and techniques new to the student in order to prepare them for other 2-D courses that rely on drawing and painting skills.
Painting 2	50.0322001	0.5	10-12	Painting 1	In the Painting 2 course students begin working on creating a unique artistic style and developing a portfolio. Students are free to generate ideas as subject matter for their artwork and use the skills learned in previous 2-D courses to inform their aesthetic decision making.
Jewelry & Metalcrafts 1	50.0460001	0.5	9-12	Introduction to Art	Jewelry and Metalcrafts 1 introduces jewelry making as a historical and contemporary art form. A variety of media and tools are explored such as fibers, leather, metal and glass. The elements of art and principles of design are used to analyze, design, create and evaluate jewelry. The course combines aesthetics, art criticism, and art history with studio production of jewelry. Jewelry 2 enhances Level 1 skills and emphasizes the origins and functions of jewelry while exploring and experimenting with non-traditional materials. Students will develop a voice through the study of master artists and material choices. In Jewelry 3 and Jewelry 4 students create a cohesive body of jewelry works culminating in a final gallery showing.
Jewelry & Metalcrafts 2	50.0462001	0.5	9-12	Jewelry 1	
Jewelry & Metalcrafts 3	50.0463001	0.5	10-12	Jewelry 2	
Jewelry & Metalcrafts 4	50.0464001	0.5	10-12	Jewelry 3	
Photography 1	50.0711001	0.5	9-12	Introduction to Art	Photography 1 is an introduction to black and white photography and darkroom processing. Students are allowed to pace themselves and will create a photographic portfolio as they learn the technical and artistic aspects of photography. A brief introduction to digital photography will be included. Photo history and critiques of photos will be addressed throughout the semester. Photography2 builds on basic skills and darkroom techniques learned in Photography 1. Students hone skills in communicating meaning through photography. They learn to use a 35mm camera, develop and print images from black and white film and refine darkroom and printing techniques. The course incorporates aesthetics, art criticism, art history and a brief introduction to digital photography. Photography 3 and 4 hone skills in communicating meaning through photography. Students will work in a more conceptual manner to develop their own ideas, style and artistic voice while developing a portfolio.
Photography 2	50.0712001	0.5	9-12	Photo 1	
Photography 3*	50.0713001	0.5	10-12	Photo 2	
Photography 4*	50.0714001	0.5	10-12	Photo 3	
*pre AP					

Sculpture 1	50.0611001	0.5	9-12	Introduction to Art	<p>Sculpture 1 introduces students to the <i>production</i> of three-dimensional art making including additive, subtractive and modeling processes of sculptural construction. The course is designed to teach a variety of techniques in a variety of media such as metal, paper, and wood.</p> <p>Sculpture 2 offers in-depth study to the <i>production</i> of three-dimensional art making including additive, subtractive, casting and modeling processes while investigating a variety of media such as stone, metal and wood. Students are expected to make connections as they explore <i>meaning</i>, develop <i>creative thinking</i> skills, search for <i>contextual understanding</i> resulting in authentic <i>assessment</i> and <i>reflection</i>.</p> <p>Sculpture 3 and 4 offer in-depth study of the <i>production</i> of three-dimensional art making including additive, subtractive, casting and modeling processes while investigating a variety of media. Students will work in a more conceptual manner to develop their own ideas, style and artistic voice while developing a portfolio.</p>
Sculpture 2	50.0612001	0.5	9-12	Sculpture 1	
Sculpture 3*	50.0613001	0.5	10-12	Sculpture 2	
Sculpture 4* *pre AP	50.0614001	0.5	10-12	Sculpture 3	
AP Art History	50.0921010	1.0	10-12	None	<p>The AP Art History course delves into the history and art of societies from the prehistoric and ancient worlds ending with the contemporary world. Students will learn how culture, philosophy and religion manifest themselves through visual art. Students will also learn how to identify different artists, specific works of art, techniques as well as art movements based on the characteristics of certain places and time periods. The course is arranged chronologically to give students a comprehensive understanding of the development of visual art over the course of history. The course helps students to develop analytical, communication, and critical thinking skills, as well as improving writing and problem-solving abilities. This course is an accepted credit for many required college and university art classes. The course provides a greater culture awareness of and appreciation for the world and its vast array of cultures. This is purely an academic class with no studio element involved. Learning will be done in the classroom as well as outside the classroom via on site learning at museums, and galleries.</p>
AP Drawing Portfolio	50.0811010	1.0	10-12	<p>Requires Art Teacher Recommendation</p> <p>Portfolio Review Feb 12 -16. Sign up in Art Office.</p>	<p>The AP Studio Art Program consists of three portfolio exams — Drawing, 2-D Design, 2-D Design with an emphasis on photography, and 3-D Design.</p> <p>Drawing portfolios should focus on light quality, light and shade, mark making and composition as well as surface manipulation, and the illusion of depth. Various approaches should show drawing competence. 50 min/night based on 2 respondents</p> <p>2-D Portfolios should focus on purposeful decision-making about how to use the elements of art in an imaginative way. 35 min/night based on 4 respondents</p> <p>3-D portfolios should focus on the investigation of sculptural design principles through various media to create a portfolio. Portfolios allow flexibility of coursework while guiding students to produce college-level quality, artistic investigation, and breadth of work. 45 min/night based on 7 respondents</p>
AP 2D Design (Traditional)	50.0813010	1.0	10-12		
AP 2D Design (Photography)	50.0813610	1.0	10-12		
AP 3D Design	50.0814010	1.0	10-12		

CAREER TECH

Course Title	Course #	Credit	Grade(s)	Prerequisite(s)	Major Topics
Intro to Digital Technology	11.4150000	1.0	9-12	None	This course provides students with an introduction to the principles of computing including PC hardware, maintenance, networking, website design, HTML code, and programming. It is the prerequisite for all computing and web design pathway courses.
Digital Design (formerly Fundamentals of Web Design)	11.4511000	1.0	9-12	Intro to Digital Technology	Students learn how to design web sites including site planning, page layout, graphic design, and the use of HTML and Javascript. Forms and scripts are used to add interactivity. Students learn Adobe PhotoShop, Dreamweaver, and Flash.
AP Computer Science Principles	11.0190010	1.0	10-12	85+ in Algebra II Computer Science teacher sign-off (counts as math <i>OR</i> science credit toward graduation) Which AP CompSci course is right for me?	The AP Computer Science Principles course is designed to be equivalent to a first-semester introductory college computing course. AP Computer Science Principles introduces students to the foundational concepts of computer science and challenges them to explore how computing and technology can impact the world. With a unique focus on creative problem solving and real-world applications, AP Computer Science Principles prepares students for college and career. 30 min/night as reported by 26 respondents
AP Computer Sci. A with JAVA	11.0160010	1.0	10-12	85+ in Algebra II Computer Science teacher sign-off (counts as math <i>OR</i> science credit toward graduation) Which AP CompSci course is right for me?	Equivalent to an intro college course in Computer Science, this course teaches the student the fundamentals of good coding techniques using Java. Course emphasizes object-oriented programming methodology with a concentration on problem solving and algorithm development including the study of design, abstraction, and data structures. Topics include a brief history of computing, basics of computing systems, ethics in computing, syntax/semantics in JAVA, selection statements, looping routines, classes and their methods. 20 min/night as reported by 43 respondents
Audio/Video Technology and Film 1	10.5181000	1.0	9-12	None	Introduction to video production: production techniques while producing both field and studio television programs
A/V Tech and Film 2	10.5191000	1.0	10-12	Audio/Video Technology and Film 1	Write, produce, direct, and edit studio and ENG productions; lighting
A/V Tech and Film 3	10.5201000	1.0	11-12	Audio/Video Technology and Film 2	Independent production of a full television program; writing, producing, directing, and editing studio productions Produce the weekly Morning Buzz
Broadcast Video Production 4	10.4141000	1.0	12	Audio/Video Technology and Film 3	Independent production of a full television program; writing, producing, directing, and editing studio productions Produce the weekly Morning Buzz

Foundations of Engineering Technology	21.4250000	1.0	9-12	None	Foundations of Engineering is the introductory engineering course at Roswell HS, and the first course in the Engineering Pathway. There are no academic prerequisites. Students will learn the basics of the Design Process as they relate to product development and engineering. In this class we will design, build and race CO2 cars, teach CAD (Computer-Aided Design) on Autodesk Inventor, and design, build and test a trebuchet.
Engineering Concepts	21.4710000	1.0	10-12	Foundations of Engineering & Technology	Introduces students to the fundamental principles of engineering. Students learn about areas of specialization within engineering and engineering design, and apply engineering tools and procedures as they complete hands-on instructional activities.
Engineering Applications	21.4720000	1.0	11-12	Engineering Concepts	Students have opportunities to apply engineering design as they develop solutions for technological problems. Students use applications of mathematics and science to predict the success of an engineered solution and complete hands-on activities with tools, materials, and processes as they develop working drawings and prototypes.
Research, Design, and Project Management	21.4610000	1.0	12	Engineering Applications	Provides students with opportunities to work with students from other pathways as a member of a design team. Research strategies, prototype testing and evaluation, and communication skills are emphasized.
Introduction to Drafting and Design	48.5410000	1.0	9-12	None	Introduction to Drafting and Design teaches students the basics of sketching, drawing layout, drafting plans and engineering drawing, and is the first course in the Architecture Pathway. There are no academic prerequisites for Intro. Students learn the basics of sketching and board drafting as preparation for more complex drafting techniques and the use of the CAD (Computer-Aided Design) programs AutoCAD 2016 and Revit 2016 for architectural design.
Architectural Drawing & Design I	48.5450000	1.0	10-12	Intro to Engineering, Drawing & Design	Students are introduced to the basic terminology, concepts, and principals of architectural design. Emphasis on house designs, floor plans, roof designs, elevations (interior and exterior), schedules and foundations. CAD tools and software are used extensively.
Architectural Drawing & Design II	48.5460000	1.0	11-12	Architectural Drawing I	Builds on the skills developed in Architectural Drawing and Design I. Emphasis on schedules, plumbing, heating and air, graphic presentations, plot/site plans, specifications, and building estimations. CAD tools and software are used extensively.
Food, Nutrition, and Wellness	20.4161000	1.0	9-12	None	Study of nutritional needs and food choice for optimal health across the lifespan- includes food labs that illustrate nutrition principles. This course leads to the advanced nutrition pathway and develops a knowledge base and the skills necessary to select among alternatives in the marketplace, with an emphasis on nutrient content, chronic diseases, and food safety.

Food Science	20.4181000	1.0	10-12	Food, Nutrition, and Wellness	This is an advanced course that explores the science behind foods— including food labs that illustrate science principles. This course provides knowledge for real life and pathway into dietetics, nutrition and food science careers.
Intro to Personal Care Services	12.5440000	1.0	9-12	None	Policies and Standards of Georgia State Board rules and regulations; Introduction to phases of shampooing , thermal hair styling, and braiding; Manicure/Pedicure and Facials All topics include written and practical application in the lab.
Cosmetology Services 2	12.4100000	1.0	10-12	Intro to Personal Care Services	Cosmetology skills performed on mannequins (hair cutting, chemical wave/relaxing) and salon management
Cosmetology Services 3	12.4110000	1.0	11-12	Cosmetology Services 2	Introduction to all phases of cosmetology with the goal of accumulating Georgia Cosmetology State Board unit hours required to become a licensed master cosmetologist
JROTC 1	28.0310000	1.0	9-12	None	Introduction to American symbols, customs and traditions and the history and purpose of Army JROTC; Introduction to the essential skills needed to maximize learning potential and future success; Assessment of current skill set and work to develop maximum potential; Application of learning theory and techniques to improve study, communication and planning skills; Exploration of social responsibility, conflict resolution, and service learning opportunities; Introduction to leadership: its definition, the importance of knowing and applying basic leadership skills (principles, styles, values, the BE, KNOW, and DO attributes); Introduction to reading techniques, study habits, and test-taking strategies.
JROTC 2	28.0320000	1.0	10-12	JROTC 1	Development of an appreciation for the importance of physical fitness in maintaining good health and appearance; Basic information about nutrition and exercise; First aid for emergency and non-emergency situations; Introduction to drug awareness to include the use and effect of drugs, alcohol and substances; Exploration of the values and principles that underlie good citizenship with emphasis placed on the United States Constitution and Bill of Rights, responsibility of U.S. citizens, basic national values, the U.S. federal justice system, and service to the community; Introduction to a variety of significant events and historical figures that contributed to our citizenship and American history.
JROTC 3	28.0330000	1.0	11-12	JROTC 2	Further study and application of basic leadership skills (principles, styles, values, the BE, KNOW and DO attributes); Demonstration, assessment and evaluation of cadet leadership potential through the application of these concepts in command or staff positions; Introduction to the communication process among individuals and the communication principles of writing, speaking, and listening; Preparation and presentation of effective oral and written communication; Introduced to basic guidelines for managing conflict and communication skills necessary for

					finding solutions to resolve conflicts.
JROTC 4	28.0340000	1.0	12	JROTC 3	Continuation of cadets' leadership development by concentrating on basic individual leadership responsibilities/techniques and introducing the responsibilities of team leaders. Cadets will have the opportunity to identify the impact of their actions on themselves as well as on other team members in the areas of individual responsibility, self-reliance, followership, and teamwork. Cadets will be introduced to the basic principles of management, how leaders use these principles to effectively manage resources, and the basic differences between leadership and management techniques. Students will deliver instruction using accepted principles and methods of instruction. Students will develop lesson plans and graphic organizers; recognize how to determine the material that they must review and rehearse prior to delivering instruction
Industry Fundamentals and Occupational Safety	46.5450000	1.0	9-12	None	Construction site safety, hands-on project-based lessons with hand tools and power tools, interpretation of construction drawings, construction math, and employability skills Students completing all requirements for this course will earn the nationally recognized NCCER Core Certification.
Introduction to Construction	46.5460000	1.0	9-12	Industry Fundamentals and Occupational Safety	Basics of carpentry (floor, wall, roof and stair framing), electrical wiring, plumbing, and masonry through hands-on projects and skill demonstrations.
Electrical 1	46.5600000	1.0	11-12	Introduction to Construction	Specialty focus in the electrical trade
Work-Based Learning	06.7114000* 06.7115000**	1.0 2.0	12 12	None with preference given to CTE pathway completers Application Ms. Flemister	Work experience *6 th period **5 th /6 th periods
Work-Based Learning Teaching As a Profession (formerly TI Mentorship)	13.7114001* 13.7124002**	0.5 0.5	12 12	Application Ms. Grant	Practical application of teaching methods working with elementary, middle, or high school classes *1 st semester **2 nd semester

ENGLISH

Course Title	Course #	Credit	Grade(s)	Prerequisite(s)	Major Topics
9th Literature and Composition	23.0610000	1.0	9	None	Genre-based reading strategies, analysis of fiction and nonfiction texts. Narrative, argument and synthesis writing; vocabulary and grammar instruction. This is an EOC course.
9th Literature and Composition Honors	23.0610040	1.0	9	8th Grade Teacher Recommendation See FCS placement guidelines	Genre-based reading strategies, analysis of fiction and nonfiction texts at an advanced level. Narrative, argument and synthesis writing; vocabulary and grammar instruction. Appropriate for teacher-recommended students who earned at least a 90 in 8th grade Accelerated English. This is an EOC course. 45 minutes/night as reported by 147 respondents
10th Literature and Composition	23.0620000	1.0	10	None	Study of World Literature and informational texts; An exploration of commonalities and differences among works of literature from different times and places around the world. Narrative, argument and synthesis writing; vocabulary and grammar instruction.
10th Literature and Composition Honors	23.0620040	1.0	10	9th Grade Teacher Recommendation See FCS placement guidelines	Study of World Literature and informational texts at an advanced level; An exploration of commonalities and differences among works of literature from different times and places around the world. Narrative, argument and synthesis writing—process and timed; vocabulary and grammar instruction. Appropriate for teacher-recommended students who earned at least an 85 in 9th Honors Literature and Composition. 50 min/night as reported by 151 respondents
11th American Literature and Composition	23.0510000	1.0	11	None	A study of American literature and informational texts from the 1600s to present. Narrative, argument and synthesis writing; vocabulary and grammar instruction. This is an EOC course.
11th American Literature and Composition Honors	23.0510040	1.0	11	10th Grade Teacher Recommendation See FCS placement guidelines	Advanced-level study of American literature and informational texts from the 1600s to present. Narrative, argument and synthesis writing—process and timed; vocabulary and grammar instruction. Appropriate for teacher-recommended students who earned at least an 85 in 10th Literature and Composition-Honors. This is an EOC course. 30 min/night as reported by 71 respondents
11th Advanced Placement (AP) Language & Composition	23.0530010	1.0	11	10th Grade Teacher Recommendation See FCS placement guidelines	Rigorous college level study of authors' styles and rhetorical techniques, survey of American literature with an emphasis on nonfiction texts. Focus on passage analysis, argument and synthesis writing at an advanced level. Students can earn college credit. Appropriate for teacher-recommended students who earned at least a 90 in 10th Honors Literature and Composition. Moving from on-level 10th Lit to AP Lang is atypical, and generally not encouraged. 30 min/night as reported by 87 respondents
12th Multicultural Literature and Composition	23.0670000	1.0	12	None	Year-long on-level 12th grade core course focused on literature and informational texts by and about people of diverse ethnic backgrounds. Narrative and argumentative writing. Vocabulary and grammar instruction. Appropriate for students who

					successfully completed 11 th American Literature and Composition-on level.
12th British Literature and Composition	23.0520000	1.0	12	None	Year-long on-level 12 th grade core course focused on the study of British literature and informational texts; Includes Chaucer and Shakespeare. Narrative and argumentative writing. Vocabulary and grammar instruction. Appropriate for students who completed 11 th American Literature and Composition-on level.
12th Advanced Composition Honors	23.0340040	1.0	12	11 th Grade Teacher Recommendation See FCS placement guidelines	Advanced-level study of contemporary literature and informational texts. Narrative, argument and synthesis and synthesis writing; vocabulary and grammar instruction. Appropriate for students who received at least an 80 in AP Lang or an 85 in 11 th Honors American literature and composition. 45 min/night as reported by 30 respondents
12th AP Literature & Composition	23.0650010	1.0	12	See FCS placement guidelines	Advanced college level study and analysis of literature and critical approaches to literature. Students can earn college credit. Appropriate for teacher-recommended students who earned at least an 85 in AP Lang or a 90 in 11 th <u>Honors</u> American Literature and Composition. Moving from on-level 11 th Lit to AP Lit is atypical, and generally not encouraged. 35 min/night as reported by 39 respondents
College English* *will not be added to course requests until accepted to college	23.0630400	1.0	12	Successful application to appropriate college	Freshman English curriculum at the collegiate level
Creative Writing (Writer's Workshop)	23.0310001	0.5	9-12	None	Learn the ins and outs of creative writing; improve techniques to become a more focused and more skilled writer of short fiction, creative nonfiction, novel, poetry or screenplays; discover resources for submitting your short stories, novels, and any other creative writing to professional publications
Mythology	23.0210001	0.5	9-12	None	This literature elective introduces classical Greek and Roman, Norse, and medieval mythology through the study of themes and narratives that emphasize the importance of mythical elements and how they relate to modern myths of the world.
Speech/Forensics 1	23.0460001	0.5	9-12	None	Public speaking: planning, writing, rehearsing, and delivering speeches; research techniques; participation in debates, discussions, group activities
Speech/Forensics 2	23.0470001	0.5	9-12	Speech 1 with 85+	Advanced public speaking: planning, writing, rehearsing, and delivering speeches; research techniques; participation in debates, discussions, group activities
Film 101 (DA/Film/Video/TV 1)	52.0710001	0.5	9-12	None	The study of classic films such as Star Wars as well as other contemporary films. Students view films in a variety of genres such as drama, horror, comedy and western. Students watch and discuss a variety of films within these genres. They also have the

					opportunity to share their favorite films with classmates. One of the most enjoyable projects in the class is the ability to create (as a group or individually) a short original film.
Adventure Writing (Literary Types and Composition)	23.0640001	0.5	11-12	None	This semester-long elective course will focus on literature of adventure. Texts will demonstrate protagonists who either conquer or learn from their environment. We'll study major forms of fiction and nonfiction: short story, folktale, poetry, drama, essay, biography, autobiography, memoir, and editorial. We'll pair activities to help our understanding of a range of works—from travel writing to adventure fiction. Writing is a critical component of this course, emphasizing the following writing genres: argumentative, expository, and narrative. You can expect this course will connect everything back to various types of adventure, use interactive technology, have field trips, include modern texts, and value exploration.
SAT Prep	35.0660001	0.5	10-12	2 nd semester only for 10 th graders with 75+ average in 10 th Lit and Geom	Topics in language arts and mathematics and selected test-taking strategies related to successful test-taking
Journalism 1 Literary Magazine	23.0320008	1.0	10-12	Application	Study of creative writing, production of school literary magazine
Journalism 2 Literary Magazine	23.0330008	1.0	11-12	Lit Mag 1	Continued study of creative writing and digital magazine production
Journalism 101 (Jrn 1/Newspaper)	23.0320000	1.0	9 -12	None	Learn the basics of journalism before going into Yearbook or Newspaper as a production class
Journalism 2 Newspaper	23.0330000	1.0	10-12	Journalism 101 with 85+	Advanced study of newspaper journalism, production of school newspaper
Journalism 3 Newspaper	23.0350000	1.0	11-12	Newspaper 2 with 85+	Advanced study of newspaper journalism, production of school newspaper
Journalism 4 Newspaper	23.0360000	1.0	12	Newspaper 3 with 85+	Advanced study of newspaper journalism, production of school newspaper
Journalism 2 Annual	23.0330007	1.0	10-12	Journalism 101	Advanced study of photo journalism, production of school annual (yearbook)
Journalism 3 Annual	23.0350007	1.0	11-12	Annual 2	Advanced study of photo journalism, production of school annual (yearbook)
Journalism 4 Annual	23.0360007	1.0	12	Annual 3	Advanced study of photo journalism, production of annual (yearbook)

ESOL

Courses Available for Core ELA Credit

**** Sheltered classes capped at 23 without an aide/ 25 with an aide.**

Course Title	Course #	Credit	Criteria for Placement-Access/ WAPT Score	Prerequisite(s)	Curriculum and Materials
9th Grade Literature and Composition Sheltered Push In* *Available based on demand and teacher availability	23.0610020	1.0	3.5+	None	Mainstream curriculum and materials, supplemented with ESOL-appropriate materials.
	23.0610090				
10th Grade Literature and Composition Sheltered Push In*	23.0620020	1.0	2.5+ 3.0+	None	Mainstream curriculum and materials, supplemented with ESOL-appropriate materials.
	23.0620090				
11th Grade American Lit/Comp Sheltered Push In*	23.0510020	1.0	3.5+	9 th and 10 th Literature and Composition	Mainstream curriculum and materials, supplemented with ESOL-appropriate materials.
	23.0510090				
Multicultural Literature Sheltered Push In*	23.0670020	1.0	2.5+	9 th , 10 th , and 11 th Literature and Composition	Mainstream curriculum and materials, supplemented with ESOL-appropriate materials.
	23.0670090

US History Sheltered Push In*	45.0810020 45.0810090	1.0	3.5+	World History	Mainstream curriculum and materials, supplemented with ESOL-appropriate materials.
Economics Push-In	45.0610091	0.5	3.5+	World History, US History	Mainstream curriculum and materials, supplemented with ESOL-appropriate materials.
World Geography (Sheltered)	45.0711020 (21,22)	0.5	Below 3.5	None	Mainstream curriculum and materials, supplemented with ESOL-appropriate materials.

ESOL

Scheduled Courses Available for Elective Credit

** The following courses must meet the guidelines for ESOL Scheduled classes. **

Course Title	Course #	Credit	Criteria for Placement-Access/ WAPT Score	Prerequisite(s)	Curriculum and Materials
Communication Skills I	55.0210000 (01,02)	1.0	1.0-2.5	None	Former ESOL I materials.
Communication Skills II	55.0220000 (01,02)	1.0	2.5-3.5	None	Former ESOL IV materials.
Reading and Listening in Content Areas	55.0230000 (01,02)	1.0	2.0-3.5	None	Basic Read/Write materials supplemented with ESOL materials as needed.
Writing in the Content Areas	55.0250001 55.0250001	0.5	S1:2.0-3.9 S2:3.0-4.9	None	Mainstream content texts supplemented with materials purchased specifically for course.

MATHEMATICS

Course Title	Course #	Credit	Grade(s)	Prerequisite(s)	Major Topics
Algebra I	27.0990000	1.0	9	None	The fundamental purpose of Algebra I is to formalize and extend the mathematics that students learned in the middle grades. The critical areas, organized into units, deepen and extend understanding of functions by comparing and contrasting linear, quadratic, and exponential phenomena. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. The pacing suggested below will allow students to gain a foundation in linear, quadratic, and exponential functions before they are brought together to be compared/contrasted in Unit 5. Although units 2, 3, and 4 look lengthy in terms of the number of standards, only their application to one function type per unit will be addressed. As key characteristics of functions are introduced in unit 2 and revisited within units 3, 4, and 5, students will gain a deeper understanding of such concepts as domain and range, intercepts, increasing/decreasing, relative maximum/minimum, symmetry, end behavior, and the effect of function parameters. Unit 5 will also provide an excellent opportunity for review of many concepts in preparation for the administration of the Georgia Milestones EOC assessment.
Algebra I Support	27.0997000	1.0	9	Teacher Recommendation	Companion class for Algebra I, designed for students needing additional support. Successful completion of the class allows students to earn elective credit.
Geometry Honors	27.0991040	1.0	9 <i>Because this course offers 7 honors points, it is only for students who are a year or more ahead in</i>	See FCS placement guidelines	See Geometry 25 min/night as reported by 28 respondents

			<i>mathematics.</i>		
Accelerated Algebra I/ Geometry A Honors	27.0994040	1.0	9	See FCS placement guidelines	<p>The fundamental purpose of Accelerated Algebra I/Geometry A is to formalize and extend the mathematics that students learned in the middle grades. The critical areas, organized into units, deepen and extend understanding of functions by comparing and contrasting linear, quadratic, and exponential phenomena. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. The pacing suggested below will allow students to gain a foundation in linear, quadratic, and exponential functions before they are brought together to be compared/contrasted in Unit 5. Although units 2, 3, and 4 look lengthy in terms of the number of standards, only their application to one function type per unit will be addressed. As key characteristics of functions are introduced in unit 2 and revisited within units 3, 4, and 5, students will gain a deeper understanding of such concepts as domain and range, intercepts, increasing/decreasing, relative maximum/minimum, symmetry, end behavior, and the effect of function parameters. Unit 5 will also provide an excellent opportunity for review of many concepts in preparation for the administration of the Georgia Milestones EOC assessment. Unit 7 begins the study of geometry concepts by building upon work students have done in 8th grade. Unit 8 continues to build upon previous learnings to build a formal understanding of similarity and congruence. The last unit of the course builds upon similarity and the Pythagorean Theorem in the study of right triangle trigonometry.</p> <p>35 min/night as reported by 103 respondents</p>
Accelerated Geometry B/ Algebra II Honors	27.0995040	1.0	9-10	See FCS placement guidelines	<p>It is in Accelerated Geometry B / Algebra II that students pull together and apply the accumulation of learning that they have from their previous course, with content grouped into nine critical areas, organized into units. Students continue to work with geometry concepts as the work with circles and theorems related to them. The students then move onto applying the geometric concepts they have previously learned in the coordinate plane in finding distances and writing equations of circles. They then build upon the probability concepts they learned in middle school. Students expand their repertoire of functions to include quadratic (with complex solutions), polynomial, rational, and radical functions. And, finally, students bring together all of their experience with functions to create models and solve contextual problems. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.</p> <p>40 min/night as reported by 79 respondents</p>

<p>Geometry</p>	<p>27.0991000</p>	<p>1.0</p>	<p>10</p>	<p>Successful completion of one semester of Algebra I</p>	<p>Unit 1: Building on standards from middle school, students will perform transformations in the coordinate plane, describe a sequence of transformations that will map one figure onto another, and describe transformations that will map a figure onto itself. Students will compare transformations that preserve distance and angle to those that do not. Unit 2: Building on standards from Unit 1 and from middle school, students will use transformations and proportional reasoning to develop a formal understanding of similarity and congruence. Students will identify criteria for similarity and congruence of triangles, develop facility with geometric proofs (variety of formats), and use the concepts of similarity and congruence to prove theorems involving lines, angles, triangles, and other polygons. Unit 3: Students will apply similarity in right triangles to understand right triangle trigonometry. Students will use the Pythagorean Theorem and the relationship between the sine and cosine of complementary angles to solve problems involving right triangles. Unit 4: Students will understand and apply theorems about circles, find arc lengths of circles, and find areas of sectors of circles. Students will develop and explain formulas related to circles and the volume of solid figures and use the formulas to solve problems. Building on standards from middle school, students will extend the study of identifying cross-sections of three-dimensional shapes to identifying three-dimensional objects generated by rotations of two-dimensional objects. Unit 5: Students will use the concepts of distance, midpoint, and slope to verify algebraically geometric relationships of figures in the coordinate plane (triangles, quadrilaterals, and circles). Students will solve problems involving parallel and perpendicular lines, perimeters and areas of polygons, and the partitioning of a segment in a given ratio. Students will derive the equation of a circle and model real world objects using geometric shapes and concepts. Unit 6: Students will understand independence and conditional probability and use them to interpret data. Building on standards from middle school, students will formalize the rules of probability and use the rules to compute probabilities of compound events in a uniform probability model.</p>
<p>Algebra II Honors</p>	<p>27.0992040</p>	<p>1.0</p>	<p>10</p> <p><i>Because this course offers 7 honors points, it is only for students who are a year or more ahead in mathematics.</i></p>	<p>See FCS placement guidelines</p>	<p>See Algebra II 25 min/night as reported by 31 respondents</p>
<p>Accelerated Pre-Calculus Honors</p>	<p>27.0977040</p>	<p>1.0</p>	<p>10-11</p>	<p>See FCS placement guidelines</p>	<p>Accelerated Pre-Calculus focuses on standards to prepare students for a more intense study of mathematics. The critical areas organized in nine units delve deeper into content from previous courses. The study of circles and parabolas is extended to include other conics such as ellipses and hyperbolas. Trigonometric functions are introduced and developed to include inverses, general triangles and identities. Matrices provide an organizational structure in which to represent and solve complex problems. Students expand the concepts of complex numbers and the coordinate plane to represent and operate upon vectors. They apply methods from statistics to draw inferences and conclusions from data. Probability</p>

					<p>rounds out the course using counting methods, including their use in making and evaluating decisions. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.</p> <p>40 min/night as reported by 66 respondents</p>
Algebra II	27.0992000	1.0	11	Successful completion of one semester of Geometry	<p>It is in Algebra II that students pull together and apply the accumulation of learning that they have from their previous courses, with content grouped into six critical areas, organized into units. They apply methods from probability and statistics to draw inferences and conclusions from data. Students expand their repertoire of functions to include quadratic (with complex solutions), polynomial, rational, and radical functions. And, finally, students bring together all of their experience with functions to create models and solve contextual problems. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.</p>
Pre-Calculus Honors	27.0974040	1.0	11 <i>Because this course offers 7 honors points, it is only for students who are a year or more ahead in mathematics.</i>	See FCS placement guidelines	<p>See Pre-Calculus</p> <p>40 min/night as reported by 74 respondents</p>
Advanced Mathematical Decision Making	27.0850000	1.0	12	See FCS placement guidelines	<p>Study more in depth statistical information, summaries, and methods of designing and conducting statistical studies; analyze various voting processes, modeling of data, and basic financial decisions; and use network models for making informed decisions</p>
Pre-Calculus	27.0974000	1.0	12	Successful completion of one semester of Algebra II	<p>Pre-Calculus focuses on standards to prepare students for a more intense study of mathematics. The critical areas organized in eight units delve deeper into content from previous courses. The study of circles and parabolas is extended to include other conics such as ellipses and hyperbolas. Trigonometric functions are introduced and developed to include inverses, general triangles and identities. Matrices provide an organizational structure in which to represent and solve complex problems. Students expand the concepts of complex numbers and the coordinate plane to represent and operate upon vectors. Probability rounds out the course using counting methods, including their use in making and evaluating decisions. The Mathematical Practice Standards apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations.</p>

AP Calculus AB	27.0720010	1.0	11 – 12	See FCS placement guidelines	Real numbers and the Cartesian plane; review of functions, limits and their properties; derivatives, differentiation, and application; anti-derivatives and indefinite integration; area and definite integrals; integration by substitution; the Trapezoidal rule; logarithmic, exponential and other transcendental functions; and applications and methods of Integration 45 min/night as reported by 42 respondents
AP Calculus BC	27.0730010	1.0	11 – 12	See FCS placement guidelines	Review of functions, limits, and their properties; differentiation and integration; applications of differentiation; logarithmic, exponential, and other transcendental functions; applications of integration and integration techniques; improper integrals; and L'Hôpital's Rule 25 min/night
AP Statistics	27.0740010	1.0	11 – 12	See FCS placement guidelines	Introduction to statistics, descriptive statistics, probability; probability distributions, and normal probability distributions; estimates and sample size; hypothesis testing; inferences from two samples; correlation and regression; multinomial experiments; analysis of variance; statistical process control; nonparametric statistics; and design and sampling 45 min/night as reported by 45 respondents
Multivariable Calculus II/III Year-long enrollment required (via Ga Tech Distance Learning @ RHS)	27.0710409	1.0	12	See FCS placement guidelines Application to Georgia Tech	<i>For information please contact Georgia Tech Admissions office by phone at (404) 894-4154 or by email at http://admiss.gatech.edu/dcp/</i> <i>Enrollment in this class is controlled strictly by Georgia Tech. Successful completion of AP Calculus does not guarantee enrollment.</i>
SAT Prep	35.0660001	0.5	10-12	2 nd semester only for 10 th graders with 75+ average in 10 th Lit and Geom	Topics in mathematics and language arts, selected test-taking strategies related to successful test results

NON-DEPARTMENTAL COURSES

Course Title	Course #	Credit	Grade(s)	Prerequisite(s)	Major Topics
TI/Mentorship See Career Tech WBL					
Peer Facilitation	35.0410001	0.5	12	Application, Behavior, attendance, interview	Assistance with office duties; interacting with adults in an office setting

PERFORMING ARTS

Course Title	Course #	Credit	Grade(s)	Prerequisite(s)	Major Topics
Fundamentals of Theatre 1	52.0210001	0.5	9-12	None	This semester long introductory course is an exploration of theatre as an artistic form that focuses on the value of theatre in society and showcases the amazing variety of theatre being performed today. It is the perfect place for beginning students to discover what Theatre is about.
Technical Theatre 1	52.0410000	1.0	9-12	None	This year-long course teaches all the technical elements of theatre. Students get hands-on experience in these technical elements: set construction and painting, stage management, lighting, costuming, makeup and sound. Project-based instruction encourages students to design technical elements and to become crew members and leaders working on actual school productions presented on the RHS stage.
Technical Theatre 2	52.0420000	1.0	10-12	Technical Theatre 1	
Technical Theatre 3	52.0430000	1.0	11-12	Technical Theatre 2	
Technical Theatre 4	52.0440000	1.0	12	Technical Theatre 3	
Acting 1	52.0610000	1.0	9-12	None	This is a year-long introduction to acting class. Beginning actors will be exposed to several different performance styles and methods which will improve their performance skills. This course uses theatre to encourage cooperative learning, team work, organization, and leadership skills. Theatre's forte is in the emotional arena, where participants are able to not only express emotion in a safe environment, but more pertinently, able to learn how to calibrate their emotional responses to various stimuli. The class allows all students the opportunity to perform on a regular basis.
Acting 2	52.0620000	1.0	10-12	Acting 1	This year-long course pushes the actor to dig deeper into his or her creative resources. Students learn advanced character analysis and development, voice technique and movement styles. The student then explores roles from a variety of important past and present plays from a variety of perspectives. Preparation includes research into historical acting styles and discovering the challenge of performing vastly different roles. The course offers directing opportunities, competition and audition opportunities, performing short plays, exploring film acting, and the chance to perform in a public

					showcase on the RHS stage.
Advanced Drama 1	52.0510000	1.0	9-12	Interview <i>or</i> Audition ONLY	Advanced Drama 1 is a yearlong course that offers hands-on experience in the artistic, technical, managerial, and financial elements of a dramatic production. Students will be part of the production company and each will take responsibility for key elements of productions throughout the year, taking a show from planning to completion. This course is for the dedicated theatre student.
Advanced Drama 2	52.0520000	1.0	10-12	Advanced Drama 1	
Advanced Drama 3	52.0523000	1.0	11-12	Advanced Drama 2	
Advanced Drama 4	52.0524000	1.0	12	Advanced Drama 3	
Beginning Guitar 1	53.0841001	0.5	9-12	None	Beginning to intermediate guitar techniques with a heavy emphasis on learning pop/rock songs from guitar tablature. Songwriting/composition, blues improvisation, and soloing will be covered. Reading music at a basic level will be introduced. Ongoing music theory.
Beginning Guitar 2	53.0842001	0.5	9-12	Beginning Guitar 1	Intermediate to advanced guitar techniques with a heavy emphasis on classical guitar and advanced pop/rocks songs. Songwriting/composition, improvisation, and soloing will be covered. Students expected to read music and tablature at a higher level. Ongoing music theory.
Beginning Guitar 3	53.0843001	0.5	10-12	Beginning Guitar 2	
Beginning Keyboard Technique 1 (Piano)	53.0941001	0.5	9-12	None	Basic piano techniques, note reading, styles of piano playing, and music theory
Beginning Keyboard Technique 2	53.0942001	0.5	9-12	Keyboard 1	More piano techniques, note reading, styles of piano playing, and music theory
Beginning Keyboard Technique 3	53.0943001	0.5	10-12	Keyboard 2	More piano techniques, note reading, styles of piano playing, and music theory
Beginning Keyboard Technique 4	53.0944001	0.5	10-12	Keyboard 3	More piano techniques, note reading, styles of piano playing, and music theory
Intermediate Women's Chorus	54.0251000	1.0	9-12	Teacher Recommendation or Middle School Chorus	Intermediate performance literature, performance skills, sight reading, analysis, and technical skills, other musical forms, and performance evaluation. Stresses individual progress and group experiences. Performances and rehearsals beyond classroom instruction are required.
Advanced Women's Chorus	54.0261000	1.0	9-12	Intermediate Women's Chorus or Middle School Chorus and audition	Advanced performance literature, performance skills, sight reading, analysis, and technical skills, other musical forms, and performance evaluation. Stresses individual progress and group experiences. Performances and rehearsals beyond classroom instruction are required.
Advanced Men's Chorus	54.0291000	1.0	9-12	Teacher Recommendation or Middle School Chorus	Intermediate performance literature, performance skills, sight reading, analysis, and technical skills, other musical forms, and performance evaluation. Stresses individual progress and group experiences. Performances and rehearsals beyond classroom instruction are required.
Chamber Chorus	53.0741000	1.0	10-12	Completion of one year of Intermediate Women's Chorus or Intermediate Men's	Mastery performance literature, performance skills, sight reading, analysis, and technical skills, other musical forms, and performance evaluation. Stresses individual progress and group

				Chorus and audition	experiences. Performances and rehearsals beyond classroom instruction are required.
Vocal Jazz Ensemble	53.0661000	1.0	10-12	Completion of one year of Advanced Women's Chorus or Intermediate Men's Chorus and audition	Intermediate Jazz literature, history of jazz, sight reading, technical skills, vocal improvisation, creativity, dance, and performance evaluation. Stresses individual progress and group experiences. Performances and rehearsals beyond classroom instruction are required.
Intermediate Band	53.0371000	1.0	9-12	Current Enrollment in Band or Audition	Concert Band. Sight-reading, analysis of level II and III concert band literature, and performance (3-4 concerts and possible GMEA Performance Evaluation)
Advanced Band	53.0381000	1.0	9-12	Current Enrollment in Band and Audition	Symphonic Band. Sight-reading, analysis of level III and IV concert band literature, and performance (3-4 concerts and GMEA Performance Evaluation)
Mastery Band	53.0391000	1.0	9-12	Current Enrollment in Band and Audition	Wind Ensemble. Sight-reading, analysis of level IV, V, and VI concert band literature, and performance (3-4 concerts and participation in the GMEA Performance Evaluation)
Percussion Ensemble	53.0761000	1.0	9-12	Current Enrollment in Band and Audition	Sight-reading, analysis of concert band literature, and performance (3-4 concerts with Advanced Bands 2, 3, and 4 and participation in the GMEA Performance Evaluation as well as percussion ensemble concerts)
Beginning Orchestra	53.0582000	1.0	9-12	Teacher Recommendation or Current Enrollment in Orchestra	Freshman Orchestra Sight-reading; analysis of level II and III orchestra literature; performance (3-4 concerts and participation in GMEA Performance Evaluation Festival)
Intermediate Orchestra	53.0583000	1.0	9-12	Teacher Recommendation or Current Enrollment in Orchestra	Sophomore Orchestra Sight-reading; analysis of level II and III orchestra literature; performance (3-4 concerts and participation in GMEA Performance Evaluation Festival)
Advanced Orchestra	53.0581000	1.0	9-12	Teacher Recommendation or Current Enrollment in Orchestra	Concert Orchestra Sight-reading; analysis of level III and IV orchestra literature; performance (3-4 concerts and participation in GMEA Performance Evaluation Festival)
Mastery Orchestra	53.0591000	1.0	9-12	Audition	Chamber Orchestra Sight-reading; analysis of level V and VI orchestra literature; performance (3-4 concerts and participation in GMEA Performance Evaluation Festival)
AP Music Theory	53.0230010	1.0	11-12	Completion of 2 years of high school band, chorus, guitar, or orchestra Current enrollment in music class 85+ average in most	The ultimate goal of an AP Music Theory course is to develop a student's ability to recognize, understand, and describe the basic materials and processes of music that are heard or presented in a score. The achievement of this goal may be best promoted by integrated approaches to the student's development of: aural skills, listening exercises, sight-singing skills, performance exercises, and written skills through written exercises, compositional skills, creative exercises, analytical

				recent music course Teacher Recommendation	skills, and analytical exercises 16 min/night as reported by 10 respondents
--	--	--	--	---	--

PHYSICAL EDUCATION					
Course Title	Course #	Credit	Grade(s)	Prerequisite(s)	Major Topics
General Health (Required for 9 th graders)	17.0110001	0.5	9	None	Wellness concepts, human sexuality, State ADAP requirements, CPR training, first aid procedures, safety practices, and responsibility for health decisions
Personal Fitness (Required for graduation)	36.0510001	0.5	9-12	None	Personal fitness program, stress management, fitness games, nutrition, and weight training
Outdoor Education & Activities	36.0250001	0.5	12	None	Outdoor safety/survival, archery, outdoor cooking, team and individual sporting activities including: soccer, ultimate Frisbee, volleyball, and table tennis. Some dressing out will be required.
Weight Training	36.0540001	0.5	9-12	None	Individual weight training program
Intermediate Weight Training	36.0540002	0.5	9-12	Weight Training	Intermediate weight training program
Physical Conditioning, RHS Female Athletes	36.0530001	0.5	9-12	RHS female student athletes	Team-Specific weight training program
Physical Conditioning, RHS Male Athletes	36.0520001	0.5	9-12	RHS male student athletes	Team-Specific weight training program
Physical Conditioning, Football	36.0560001	0.5	9-12	Football players	Team-Specific weight training program
Recreational Games	36.0270001	0.5	9-12	None	Table tennis, badminton, pickleball, horseshoes, Frisbee games, and other games
Intermediate Recreational Games	36.0370001	0.5	9-12	Recreational Games	Intermediate table tennis, badminton, pickleball, horseshoes, Frisbee games, and other games
Lifetime Sports	36.0220001	0.5	9-12	None	Tennis, golf, softball, and volleyball and other games

Intermediate Lifetime Sports	36.0320001	0.5	9-12	Lifetime Sports	Intermediate tennis, golf, softball, and volleyball and other games
General PE 2	36.0120001	0.5	9-12	None	Flag football, basketball, soccer, team handball, and other games
General PE 3	36.0130001	0.5	9-12	General PE	Int. flag football, basketball, soccer, team handball, and other games
Exercise/Weight Control	36.0550001	0.5	9-12	None	Low to moderate activities/walking program that allows students to exercise at their pace to improve their overall health in a noncompetitive environment
Athletic Training	36.0150001	0.5	10-12	None	Introduction to evaluation and treatment of athletic injuries Rehabbing, taping, and prevention techniques of many common sports injuries will be covered

SCIENCE					
Course Title	Course #	Credit	Grade(s)	Prerequisite(s)	Major Topics
Biology	26.0120000	1.0	9-11	None	Science lab skills and lab safety, research skills, nature of biology, cellular biology, matter energy relationships, biochemistry, genetics, theory of evolution, classification systems, and ecology
Biology Honors	26.0120040	1.0	9	See FCS placement guidelines	Science lab skills and lab safety, research skills, nature of biology, cellular biology, matter energy relationships, biochemistry, genetics, theory of evolution, classification systems, ecology and the human body 60 min/night as reported by 39 respondents
Earth Systems	40.0640000	1.0	9	Recommendation from eight grade science teacher for a ninth grade only course	Connections among Earth's systems (atmosphere, hydrosphere, and geosphere); the Earth's landscapes, ecology, and resources; phenomena fundamental to geology and physical geography (including the early history of Earth, plate tectonics, landform evolution, the Earth's geologic record, weather and climate, and history of life on Earth)
Chemistry	40.0510000	1.0	10-11	See FCS placement guidelines	Inquiry, process skills and problem solving, classification and conservation of matter, atomic structure and patterns of reactivity, electron configuration, nuclear chemistry, bonding and formation of compounds, chemical equations, phases change, equilibrium, kinetics, and thermodynamics NOTE: Students who complete Chemistry will NOT be recommended for Physical Science
Chemistry Honors	40.0510040	1.0	10-11	See FCS placement guidelines	Tools of mathematics, scientific method, mole concept, chemical reactions and gas laws, kinetic relationships, solubility, periodic table, analytical chemistry, electron configuration, atom composition and radioactivity, chemical bonding, organic chemistry, equilibrium, and oxidation 40 min/night as reported by 101 respondents
Physical Science	40.0110000	1.0	10	See FCS placement guidelines	Matter, atomic theory, radioactivity, chemical reactions, chemical bonds, acids & bases, interactions of force and motion, waves and energy transfer, electricity and magnetism

Physics	40.0810000	1.0	11-12	See FCS placement guidelines	Science process skills and lab safety, mechanics, Newton's laws, force, motion, work / power, phases of matter, thermodynamics, energy transformation and conservation, waves, sound, light, electricity, magnetism, particle theory, atomic structure and nuclear energy
Environmental Science	26.0611000	1.0	11-12	See FCS placement guidelines	The study of many components of our environment including the flow of energy and the cycling of matter, the interconnection of all life, the stability and change in an ecosystem, conservation and resource allocation, and evaluation of human activity and technology. Instruction focuses on student data collection and analysis, and interpretation of data gathered on global concepts
Earth Systems	40.0640000	1.0	11-12	See FCS placement guidelines	Connections among Earth's systems (atmosphere, hydrosphere, and geosphere); the Earth's landscapes, ecology, and resources; phenomena fundamental to geology and physical geography (including the early history of Earth, plate tectonics, landform evolution, the Earth's geologic record, weather and climate, and history of life on Earth)
AP Physics 1	40.0831010	1.0	11-12	See FCS placement guidelines	Equivalent to a first semester college course in algebra based physics. The course covers Newtonian mechanics (including rotational dynamics and angular momentum), work energy and power, mechanical waves, sound, optics, electricity, magnetism, and electrical circuits. 30 min/night as reported by 44 respondents
AP Physics 2	40.0832010	1.0	11-12	See FCS placement guidelines	Equivalent to a second semester college course in algebra based physics. This course covers Electrostatics, Electric Circuits, Magnetism, Electromagnetic Induction, Thermodynamics, Fluids, Geometric and Physical Optics, Quantum Physics, Atomic and Nuclear Physics
AP Physics C Mechanics AND Electricity/Magnetism Note: Students must sign up for BOTH semester-long courses.	40.0841011 40.0842012	1.0	11-12	See FCS placement guidelines	This is a yearlong course, made up of two semesters where you will learn to apply differential and integral calculus in order to solve problems with the following concepts: classical mechanics, Newton's Laws of Motion, work energy and power, systems of particles and linear momentum, circular motion, rotation, oscillations, gravitation, electrostatics, electric circuits, conductors, capacitors, dielectrics, magnetic fields, and electromagnetism. Calculus completion is required. Previous physics exposure is a plus, but not required. 35 min/night as reported by 17 respondents
AP Chemistry	40.0530010	1.0	11-12	See FCS placement guidelines	Atomic theory, structure of matter, bonding, gases, stoichiometry, liquids, solids, solutions, equilibrium, kinetics, thermodynamics, reaction types, nuclear, organic and qualitative analysis 60 min/night as reported by 48 respondents
AP Biology	26.0140010	1.0	11-12	See FCS placement guidelines	Biological chemistry, cells, energy transformations, molecular genetics, heredity, evolution, ecology, taxonomy and systems, survey of monera, protista, fungi, plants and animals 50 min/night as reported by 21 respondents
AP Environmental Science	26.0620010	1.0	11-12	See FCS placement guidelines	The emphasis of the course is on the comprehension of the interrelatedness of the natural systems and processes that keep our planet functioning and how human activities alter the dynamics of these systems. Ultimately the underlying focus will always lead to sustainability and better understanding how we can live with our planet, not just on it. Key themes include the living world, earth systems,

					sustainability, resource use, population growth, pollution, and global change. Scientific principles, concepts, and methodologies will be utilized to understand the interrelationships of the natural world, identify and analyze environmental problems, examine and evaluate relative risks associated with these problems, and examine alternative solutions for resolving or preventing them. Through a variety of laboratory work and field investigations, students will learn methods for analyzing and interpreting information, experimental data, and mathematical calculations. Students will be required to collect data, apply mathematical analysis and interpretation, and data interpretation. NOTE: Calculators are not permitted on the AP Exam for this course. 30 min/night as reported by 59 respondents
Human Anatomy & Physiology	26.0730000	1.0	11-12	See FCS placement guidelines	Science process and research skills, body organization, skeletal system, muscular and nervous systems, endocrine system, reproductive and urinary systems, circulatory and respiratory systems, digestive and integumentary system
Human Anatomy & Physiology Honors	26.0730040	1.0	11-12	See FCS placement guidelines	Science process and research skills, body organization, skeletal system, muscular and nervous systems, endocrine system, reproductive and urinary systems, circulatory and respiratory systems, digestive and integumentary system 40 min/night as reported by 16 respondents
Astronomy	40.0210000	1.0	12	See FCS placement guidelines	Study of astronomy, including measurement and motion, celestial clocks, the moon, solar system, stars, sun, Milky Way and other galaxies, and theories of cosmology

SOCIAL STUDIES

Course Title	Course #	Credit	Grade(s)	Prerequisite(s)	Major Topics
World History	45.0830000	1.0	10	None	Prehistoric culture, ancient civilizations, classical civilizations, the medieval world, the Age of Exploration, Enlightenment, French Revolution, decline of colonial empires in America, Industrial Revolution, nationalism and imperialism, totalitarianism, WWI, WWII, and the modern world
World History Honors	45.0830040	1.0	10	None	Honors WH combines the on-level WH curriculum with accelerated pacing and incorporates primary source document analysis and the essay writing process 60 min/night as reported by 88 respondents
AP World History	45.0811010	1.0	10	See FCS placement guidelines	The evolution of global processes and contacts in interaction with different types of human societies; the nature of changes in international frameworks and their causes and consequences, as well as comparisons among major societies Concurrent enrollment in Honors level Lit/Composition is strongly encouraged. 60 min/night as reported by 95 respondents
U. S. History	45.0810000	1.0	11	None	Colonization, the revolutionary and colonial eras, manifest destiny, Civil War and reconstruction, urbanization and Industrialism, progressive era, imperialism, WWI & WWII, The Cold War, Vietnam, and the Decades of 1950 – 2000
AP U.S. History	45.0820010	1.0	11	See FCS placement guidelines	Multicultural heritage, Colonial period, American Revolution, Jacksonian Democracy and sectionalism, Civil War and Reconstruction, Triumph of the American Nation, Gilded Age, Progressivism and immigration, Great Depression and New Deal, Labor movement, Civil Rights and women's movement, World Wars I and II, Cold War, and New World Order Concurrent enrollment in Honors level Lit/Composition is strongly encouraged. 60 min/night as reported by 136 respondents
American Government	45.0570005	0.5	12	None	Political philosophies that influenced the foundations of U.S. government and why countries develop different forms of

& Civics					government globally; U.S. constitutional principles and the branches of government; and factors influencing the political process. Students will construct and evaluate arguments, use documents and other primary source data to analyze point of view and understand and interpret information, and write document-based and comparative analysis essays
Economics	45.0610001	0.5	12	None	Supply and demand, market forces, money, banking and capital, organization of natural resources, the national economy and global interdependence
AP Micro Economics (1st Semester Only)	45.0630011	0.5	12	See FCS placement guidelines	Basic economic concepts; introduction to international economics; introduction to macroeconomics; in-depth study of the nature and functions of product markets (consumer behavior, market costs), Theory of the firm (optimal production and pricing) and Resource Markets (wages and profits)
AP Macro Economics (2nd Semester Only)	45.0620011	0.5	12		In-depth study of national economies including creation of money by commercial banks, measurements of growth, unemployment, inflation, fiscal & monetary policy, and aggregate supply and demand NOTE: This <u>year-long</u> course combines AP Micro with AP Macro, fulfilling the Economics graduation requirement. The End-Of-Course-Test is administered at the end of the course. 25 min/night as reported by 96 respondents
AP Macro Economics (2nd Semester Only)	45.0620011	0.5	12	See FCS placement guidelines	Basic economic concepts; introduction to international economics; introduction to microeconomics; in-depth study of national economies including creation of money by commercial banks, measurements of growth, unemployment, inflation, fiscal & monetary policy, and aggregate supply and demand
AP U.S. Gov. & Politics	45.0520011	0.5	12	85+ average in previous AP Social Studies course 90+ average in previous on-level Social Studies course Teacher Recommendation or AP Application	A <u>year-long</u> class that fulfills the requirements for <u>both the U.S. and Comparative Government AP exams</u> . Countries studied include: the United States, Great Britain, Russia, China, Mexico, Iran, and Nigeria. Topics include: elections, political parties, policy-making, government institutions (such as the Presidency, the legislature, and the courts), civil liberties, and globalization. 25 min/night as reported by 23 respondents
AP Comparative Gov. & Politics	45.0530011	0.5	12		
AP Human Geography	45.0770010	1.0	9	See FCS placement guidelines	Systematic study of patterns and processes that have shaped human understanding, use, and alteration of the Earth's surface; Students will examine social organization, environmental consequences, & tools geographers use in their science and practice. This class will help to strengthen geographic knowledge & skills necessary to understand the roles, responsibilities, and relationships of people & places throughout the world – past, present, and future. Concurrent enrollment in Honors level Lit/Composition is strongly encouraged. 60 min/night as reported by 79 respondents
Current Issues	45.0120001	0.5	9-12	None	Analyze & discuss Current Issues in the news through various class activities and projects. Main areas of study include but are not limited to International Affairs, Domestic Affairs,

					Technology, & the Environment. Students will also work to improve presentation skills in anticipation of future post-secondary opportunities.
World Geography	45.0711001	0.5	9-12	None	Themes of geography such as location, place and relationships within places, movement, regions, North, South and Central America, Europe, North Africa and the Middle East, Africa south of the Sahara, Asia, Oceania
Sociology	45.0310003	0.5	9-12	None	Subcultures; group behavior, social issues; environment and technology; homeless and unemployment; responsibility of dissent; drug abuse and American culture; social response to poverty; prejudice and discrimination; crime and deviance in American culture
Local History	45.0860001	0.5	9-12	None	Students will study the founding and early history of Roswell, its contribution to the Civil War, and its influential residents over its history. In addition, students will perform personalized historical research on a person or plot of land through the city's history.
World Studies (20th Century Germany)	45.0920002	0.5	9-12	None	Origin of modern Germany, WWI, appeasement and the rise of Hitler, European Theater of Operations during WWII Class reading includes <i>Band of Brothers</i> , by Stephen Ambrose, which follows Easy Company from its birth in Toccoa, GA to England, France, Holland, Belgium, and Germany through to the end of the war in 1945.
U. S. History In Film	45.0812001	0.5	9-12* *best suited for 11 th and 12 th grade	None	The production, distribution, exhibition, and audience and critic viewings of fictional films will be investigated to fully evaluate their roles as historical evidence. A major goal of this course is determining what is valid in contemporary films and historical dramas and what these films say about the people who create them, the politics behind their creation, and how they reflect the values, ideas, and larger historical issues of the times in which they were created. Students in this course will 1) view movies on various topics, 2) participate in inner/outer Socratic seminar discussions, and 3) write essays comparing film evidence to information in more traditional sources, such as articles, textbooks, and critical commentaries.
AP Psychology	45.0160010	1.0	12	85+ average in previous AP Social Studies course 90+ average in previous on-level Social Studies course Teacher Recommendation	Development, behavior, personality, sensation, perception, learning, cognition, motivations, emotions, testing, abnormalities 35 min/night as reported by 34 respondents
AP Comparative Gov. & Politics Note: This semester course is only open to those students who have already earned credit for AP Govt - US/Politics as 9 th	45.0530011	0.5	12	Completion of AP Gov't/Politics	Countries studied include: the United States, Great Britain, Russia, China, Mexico, Iran, and Nigeria. Topics include: elections, political parties, policy-making, government institutions (such as the Presidency, the legislature, and the courts), civil liberties, and globalization.

TALENTED AND GIFTED (TAG)					
Course Title	Course #	Credit	Grade(s)	Prerequisite(s)	Major Topics
Directed Study	70.2320001 (semester 1)	0.5	9-12	Approval of TAG teacher	Directed Studies may be taken in all academic areas. Student and teacher will write a curriculum contract that lists goals, objectives, and requirements for assessment for an in-depth study of the student's topic of interest.
Directed Study	70.2320002 (semester 2)	0.5	9-12	Students must have a signed Directed Study approval form. Please obtain the form from the TAG Office.	
Gifted Career Internship	70.2210001 (semester 1)	0.5	11-12	Approval of TAG teacher	Students are matched with professionals in a student-selected field that they are considering for a career. They have an opportunity to apply classroom learning in an active workplace while gaining experience and insight about the professional world. Students will leave the school for one or two periods a day. The Internship will count as either one or two of their regular elective courses during the semester.
Gifted Career Internship	70.2210002 (semester 2)	0.5	11-12	TAG Seminar "Hire Me"	

WORLD LANGUAGES

Course Title	Course #	Credit	Grade(s)	Prerequisite(s)	Major Topics
French 1	60.0110000	1.0	9-12	None	Sound systems, French alphabet, familiar words and phrases, greetings, family and friends, numbers and time, dates, weather/seasons, food/meals, city life, shopping, leisure, and culture
French 2	60.0120000	1.0	9-12	French 1	Leisure activities, weather, numbers, celebrations, clothing, shopping, holidays, vacations, house and home, household chores, and culture
French 2 Honors	60.0120040	1.0	9-12	See FCS placement guidelines	In-depth study of all topics in French 2 with more emphasis on listening and speaking proficiency and additional supplemental reading and writing 20 min/night as reported by 23 respondents
French 3	60.0130000	1.0	9-12	French 2	Daily routines, family relations, history, geography, travel, accommodations, festivals, leisure time, food, current events, careers, aspects of art and literature
French 3 Honors	60.0130040	1.0	9-12	See FCS placement guidelines	In-depth study of all topics in French III; social situations, foreign travel, opinions and feelings, aesthetic pursuits 22 min/night as reported by 27 respondents
French 4 Honors	60.0140040	1.0	11-12	See FCS placement guidelines	Pre-AP course emphasizing listening comprehension, speaking proficiency, vocabulary development and writing skills 35 min/night as reported by 6 respondents
AP French Language	60.0170010	1.0	12	See FCS placement guidelines	College level course. Study of the contemporary and historical francophone world based on 6 Global Themes.
