

Tri-Cities HS Candidate Statements (Spring 2019)

Parents

1. Tamika Cummings {tamikalcummings@yahoo.com; 678-789-2345}

As a parent of three Fulton County school students, I understand what it means to be on both sides of education. Diversity and inclusion are important and I look to learn and bring ideas to the table to broaden civic engagement amongst parents and students

Teachers

1. Eric Porter {eric.andrew.porter@gmail.com}

I was elected to the to SGC two years ago and am requesting a second term. I have enjoyed my time on the council and in conjunction with earning my masters in leadership have learned a lot about governance and leadership. I would like to continue working on the council to continue to learn, work more as a leader and devote more time to practicing what I learned as oppose to being completely new to the process.

2. Angela Addison {alpaddison@comcast.net; 678-457-9931}

The School Governance Council is an excellent opportunity to represent the best interests of the school I serve and the district I love. As a graduate and 24-year employee of the district, I believe my extensive background to include working as a student mentor, teacher leader, school administrator, staff development trainer, committee member, and SLC grant coordinator has afforded me the experience within and beyond the classroom that has allowed me to learn from and impact the school organization from the student to the community. This also includes working on the School Improvement Plan for two previous schools, student and parent transition programs, and extended learning opportunities for remediation and test preparation. Knowing and doing are essential to having the confidence to speak to what works best in our schools. This is why I desire to serve on the School Governance Council.
