

# HAC Unable to see Connections Grades

Middle schools have 2 types of classes: semester long classes and quarter long classes (connections). Both cannot be represented in HAC on the same “report card run”. HAC defaults to “report card run 2” – which is actually semester1/quarter2. If a parent wants to see their child’s current connections class grade, they will have to choose “report card run 1” and click Refresh View.

View Classwork For for Report Card Run  Order By

*Good Luck – as always HAC questions are sent to [haynesbridge@fultonschools.org](mailto:haynesbridge@fultonschools.org).*
