

NMS CHESS CLUB

In NMS Chess Club, students will participate in different kinds of tournaments- Standard Tournament Chess, Bughouse (or team chess) and Blitz (or speed chess). During meetings, members will learn tactics, how to use a chess clock, play computer chess and solve chess puzzles.

Chess is becoming ever more popular at colleges and universities. Participation in Chess Clubs is a strong positive on school transcripts. For those that excel, it can even lead to partial or full scholarships.

Our coach, International Master Carlos Perdomo, is the second highest rated player in Georgia and has earned three State Championships. He has coached students of all ages over his twelve years of teaching, including Emory University's Chess Team, which defeated Duke, Yale, and Stanford under his leadership. Coach Carlos has led many of his younger students to victory at Local, Regional, State, and National competitions. NMS is fortunate to have this mentor teaching our future chess champions. You can find more information about Coach Carlos at <http://www.chessatlanta.com/>

If your child enjoys chess, and would like to build their chess skills through lesson and competition, please take advantage of this opportunity and enroll them in NMS Chess Club.

If you have questions please contact Mrs. Wylie in room 816 or email her at wylie@fultonschools.org
