Parents,

At Brookview, we believe that every minute matters when it comes to student learning. Given this, we have developed a Digital Learning Plan that will be used in the event of inclement weather. This plan will incorporate digital resources, such as iRead and iReady, as well as activities that can be completed without access to technology.

In the event of inclement weather, such as a snow day, the district will determine if the day will be considered a Digital Learning Day. Once this announcement is made, you will be able access Digital Learning Day resources through the school website. Here you will find grade level specific learning choice boards and instructions on how to access the school based technology applications for your child(ren) to utilize at home. A choice board is a graphic organizer that allows students to choose different ways to learn about a particular concept. Your child(ren) will demonstrate their learning by selecting choices per directions indicated on the choice board.

Activities completed on the Digital Learning Day will be used as a recovery grade. Teachers will use this grade to replace a lower grade in Reading and Math. Therefore, this is an opportunity for your child to increase their grades, while supporting their mastery of content. Your child’s teacher will provide specifics regarding possible points of achievement.

We’re excited to work with you on the implementation of our Digital Learning Plan and look forward to providing and receiving feedback on how it worked for our students, teachers, and community.

Sincerely,

[Signature]
