

## **2018-2019 CCRPI**

Hillside's Score 77.1

We've analyzed all of the data from last year, including Georgia Milestones, Survey data, Discipline data, etc. We've met with the Northeast Learning Community team to pinpoint areas of focus and to understand impacts to our score. One of the biggest impacts for us is how improvement targets each year are set based on previous year's students. Regardless of this, we've made plans for improvement. We'll continue to teach at high levels, focus on student growth at all achievement levels, and strive to close achievement gaps within our subgroups. One score does not define what our teachers are doing or what our students can do; however, we recognize where we could aim our focus, and we're already working hard in those areas.
