WHAT IS A SCHOOL-FAMILY COMPACT?

The Hillside School-Family Compact for Achievement is an agreement that families, students, and teachers develop together. It explains how families and teachers will work together to make sure all our students reach grade-level standards.

EFFECTIVE COMPACTS:

- Link to goals of the school improvement plan
- Focus on student learning skills
- Describe how teachers will help students develop those skills using high-quality instruction
- Share strategies families can use at home
- Explain how teachers and families will communicate about student progress
- Describe opportunities for families to volunteer, observe, and participate in the classroom

Your School-Parent Compact is Jointly Developed!

Families, students, teachers and staff developed this School-Family Compact for achievement. Teachers suggested home learning strategies, families added ideas to make them more specific, and students told us what would help them learn.

Input is collected annually during the Title I Parent Input Spring Meeting, school-wide surveys, in-person comments, and discussion sessions conducted at Title I Parent Workshops. The School-Parent Compact is updated every year to include parent, student, teacher, and staff input. **Families are welcome to contribute comments at any time.** Submit comments to your Title I parent liaisons or use the feedback form available on the Title I webpage or from the school Parent Resource Center.

Our Goals for Student Achievement

Understanding how working together can benefit your child, it is first important to understand our district's and school's goals for student's academic achievement.

DISTRICT GOALS

"Building Our Future" is the key to realizing our goals. By 2018:

Ensure that all FCS students graduate prepared to pursue their chosen paths - whether college, career or military - and to succeed on those paths after high school by focusing on 4 top priorities over the next 5 years:

Student Achievement - Prepare students with strong academic foundations and the skills needed to navigate life beyond graduation

People and Culture - Provide a welcoming environment and positive school and district culture for students, families and employees

Community Collaboration - Engage families, community members and civic organizations as active partners

Fiscal Responsibility - Manage and protect public funds and assets through efficient and effective use of available resources
