Established guidelines for public comment

- We need to identify the types of topics we want to open to public comment, time period to submit their request for public comment, how we will release dates and/or a possible calendar to stakeholders to attend meetings
- Council decided following this discussion we will table a vote until next month's meeting on guidelines for public comment

We had a data talk

- Led by Mrs. Geathers and based upon student learning data and culture and climate data
- Participating in ATLAS protocol, 4 questions with approximately 2 minutes of reflection/discussion per question

Major Take-Aways

- We've got to figure out a way to get more parents involved and way to support our teachers. Also how to catch our students early on in their matriculation- it seems like things are trending downwards, not upwards.
- Could we somehow provide teachers with paraprofessionals or decrease class sizes? Perhaps we could write some grants for it.
- We've got to figure out how to prioritize all of our great ideas.
Date of next meeting is 4/21 and then the next meeting is 5/12 (change from 5/19). We will revisit future dates at sooner meetings.
- Next meeting set for 4/21 and confirm date for May meeting
- Establish guidelines for public comment
- Give update from Strategic Planning Meeting during Principle's Update
- Start discussing the prioritizations of areas of focus from this meeting

Meeting was adjourned at 7:48
