TeleSchool

- TeleSchool is a **strategy** for learning continuity to be deployed for **extended time** away from school for all schools.
- This plan **will start on** Monday, March 16th
- It assumes that power and internet connectivity are not disrupted.
- This extended remote engagement would apply to all schools with support from district staff.
TeleSchool

- This strategy is contingent on teachers, students, and parents knowing how to access digital resources through the use of Microsoft Teams and Microsoft Office Applications.

- Students with any barrier to the internet, devices, or other means of connectivity will have an alternative assignment. (*Please inform your teacher if you have this need*)

- When the teleschool plan is deployed, each subject(s) will have a dedicated day for work.

- Students should log into Microsoft TEAMS to access lessons and assignments for the day.

Students with Disabilities

• Students served through Interrelated (IRR) will follow the same plan as general education students.

• Students served through self-contained programs will follow an alternate plan, which will consist of a combination of digital and non-digital activities, to be implemented by parents.
Why Build in SEL Supports?

TeleSchool will look and feel different for our students. Students may experience stress, angst, fear, or other unfamiliar emotions brought on by the change in routine, fear around the coronavirus, personal experiences with illness, etc. In order to support our students through this time, we have developed Tier 1 SEL lessons.
What are the SEL Lessons?

• The SEL lessons are for grades 3-12 and are designed to be directly accessed by students.
• The content is light and is around topics such as emotions, dealing with stress, etc.
• The SEL lessons are a video and 2-3 reflection questions.
• The students have a choice in which one of the lessons they complete but should complete one per week.
