Greetings Parents. McNair Middle School is preparing our students to become responsible users of technology. McNair Middle School, on behalf of Fulton County Schools, is presently issuing each student a personal device (iPad) to use for schoolwork exclusively. In order to receive these devices, our school must be Common Sense Certified. To achieve this certification, each student must complete Digital Citizenship Training.

What is digital citizenship? In short, digital citizenship means the ability to use technology safely, responsibly, critically, and pro-actively to contribute to society. It is expected that each student will take care of their Fulton County Schools issued device and use it appropriately. To ensure this, our teachers and staff are training all students (via class activities and homework assignments) so that each student is aware of his / her responsibilities.

Here are the nine themes of Digital Citizenship:
Digital Access Full electronic participation in society.
Digital Commerce Electronic buying and selling of goods.
Digital Communication Electronic exchange of information.
Digital Literacy Process of teaching and learning about technology and the use of technology.
Digital Etiquette Electronic standards of conduct or procedure.
Digital Law Electronic responsibility for actions and deeds.
Digital Rights and Responsibilities Those freedoms extended to everyone in a digital world.
Digital Health and Wellness Physical and Psychological well-being in a digital technology world.
Digital Security (self-protection) Electronic precautions to guarantee safety.
